

SAFE POOLS...SAFER KIDS

Did you know? There is a hidden danger in swimming pools and spas that supervision cannot always prevent?

In 2004, of all children 1-4 years old who died, 26% died from drowning (CDC 2006). Fatal drowning remains the second-leading cause of unintentional injury-related death for children ages 1 to 14 years (CDC 2005)

U.S. Centers for Disease Control and Prevention

19% of drowning deaths involving children occur in public pools with certified lifeguards present.

Drowning Prevention Foundation

About two-thirds of the pool and spa-related deaths and injuries involve children ages 1-2, with about 80% of the drowning fatalities occurring in residential settings, such as the victim's home, a family or friend's house or at a neighbor's residence.

your child's
life could
depend on it!**

DRAINSAFE[®].com
Never Leave A Child Alone By Water... Any Water

New Water Solutions, Inc. - Topton, NC - 800-513-4372

The Federal Government has mandated that all commercial pools be protected under the 2008 VGB Act.

At Drainsafe[®] we believe that your children should be safe in all pools not just commercial pools and we are doing our part to promote safety and decrease these statistics.

Suction Entrapment... can only be prevented by educating yourself and protecting your pool or spa with a certified anti-entrapment type suction outlet cover.

Drainsafe[®] is a leading manufacturer of American made pool drain safety products.

If your drain doesn't look like the one above... contact your local pool supplier or pool professional to get a DS 360M installed today.
